SECTION OF NOMENCLATURE TO OUR PATRONS AND FRIENDS

We take pleasure in presenting this detailed edition of our Wholesale Price List for Spring of 1916 and recommend it to your thoughtful consideration.

We desire to take this opportunity to express that we are highly gratified and thankful to our thousands of patrons and friends for their liberal help and encouragement in our endeavor to produce and distribute the highest grade nursery stock that can be grown.

We have determined from the start to sell nothing but the best highest quality nursery stock at the lowest possible prices. Stock that will make us friends with you and generations to come. Quality and again quality is our motto.

Owing to the fact that employing agents increases the cost of stock 50 to 60 per cent., this Price List is our only salesman.

We Americans are all pursuing the almighty dollar, and in these days of close competition, when the great combinations stoop to such careful scrutiny of detail and the million-dollar packing houses are using everything but the pig's squeal, why should you not watch the economies in your line as closely?

Therefore, why pay an agent 75 cents to \$1.00 for a tree when you can buy the same identical tree from the Property Owners' Improvement Company for 25 to 35 cents?

Planting the famous P. O. I. Co. trees and plants is a money-saving proposition, for we sell to you direct at wholesale or less than one-half agent's prices. No matter how large or how small your order may be, it will have our personal attention, plus the famous P. O. I. Co. quality and service.

READ CAREFULLY

CONFIDENCE of our patrons has been won by sending exactly what they order, "true to name" and up to grade trees and plants. To those unacquainted we can only say a trial will prove their value and make you one of our many patrons.

OUR FRUIT TREES are grown at an elevation of more than 1600 feet above sea level. They are hardy, healthy, vigorous trees and plants of the famous P. O. I. Co. quality, and are all budded from fruiting orchards of merit.

OUR GUARANTEE. We guarantee all trees and plants sold by us to be true to name, free from all diseases and to reach customers in good growing condition. If any stock should prove otherwise, we hold ourselves in readiness to replace such stock free of charge or refund purchase price paid for same, this being the liquidation of all damages.

OUR SHIPPING SEASON for Spring opens about March 10th to later part of May. September 1st to December 1st for Fall.

AMOUNT OF ORDER. Owing to the fact that we are wholesale nurserymen and sell direct to customers, it is impossible for us to take orders for less than \$1.50. Therefore, on smaller orders add 25 cents extra for packing, billing of order, etc. This does not apply to Bulbs, Hardy Perennials, Cannas, Dahlias, Iris, Strawberry Plants or Evergreens, as orders for same we will put up regardless of size.

TERMS are cash with order or satisfactory references. Then one-third cash must accompany order, balance payable on delivery. Remember we guarantee satisfaction or money refunded. You take no chances.

HOW TO REMIT. P. O. money order, express money order, personal checks or drafts payable to the Property Owners' Improvement Company. When remittance is sent in the above methods we guarantee it to reach us.

PACKING AND BOXING. We do not make any extra charge for this work when orders are for more than \$1.50.

PRICES QUOTED IN THIS PRICE LIST ARE F. O. B. FREIGHT, EXPRESS OFFICE OR ABOARD CARS PENNSYLVANIA, PA.

SPECIAL DISCOUNT. On all cash orders received not later than March 25th we will give a cash discount of 10 per cent. This applies to Fruit Trees, Small Fruits, Shrubs, Roses and Evergreens only. If your order does not amount to \$4.00 get your friends to order with you and we will put the orders up separate, but ship in the same box or bale. This discount will more than pay the freight on your order. No discounts on collections.

GRADING. We guarantee every tree and plant up to grade specified, or better. Many times trees are sold by height only. This we believe to be very misleading, as we have seen trees which belonged to the second

or third class (if graded by size and caliper) sold for first grade, as they had the required height. We grade and sell our trees by height and caliper both, and believe this to be the only way that gives entire satisfaction to the planter.

Below are freight charges from Penlllyn to points stated below. In most cases the freight will cost you less than one-third cent per tree.

ESTIMATE WEIGHT OF TREES AND PLANTS BOXED

Trees, large size,	5 to 7 feet,	200 to 250 lbs. per 100 trees.
Trees, medium size	4 1/2 to 6 feet,	150 to 200 lbs. per 100 trees.
Trees, small size,	4 to 5 feet,	100 to 150 lbs. per 100 trees.
Shrub, Roses, etc.,	No. 1 size,	75 to 100 lbs. per 100 plants.
Grapes, Berries, etc.,	No. 1 size,	25 to 50 lbs. per 100 plants.

It is impossible to give a more definite estimate as some varieties weigh more than others, on account of the difference in the density of the wood growth. For instance, a Peach Tree would weigh less than a Pear Tree of exactly the same size. The above, however, will enable you to make a close estimate as to the freight rate on a given amount of stock.

The railroads bill all small freight shipments weighing 100 pounds each, even though the actual weight be less, and no shipments for less than 25 cents.

STOP! LOOK! READ!

To anybody that can prove that the trees and plants offered by us in these collections are not of the highest grade and highest quality and as good, if not better, than sold by agents at four times the price, we will give absolutely free of charge an orchard of a thousand trees. Remember, every collection sent out by us is of the highest grade. We do not offer lower grades in our collections, as some nurserymen do, for these are put up for advertising purposes only. Better pick out your collection before it is too late. If you cannot use the whole collection get your friends to divide with you.

With every order for trees sent out by us we put in samples of new varieties. The larger the order the more free trees and plants you get. "Why pay more?"

DECIDUOUS TREES

Let us estimate on your landscaping. We can save you 50 to 60 per cent. and guarantee stock to grow.

LANDSCAPE GARDENING

The home out-of-doors should be as attractive and beautiful as in-doors. Our landscape architects have published a work on landscape gradening—fully illustrated with planting plans and views, concise, easy to understand and practical. It will show you how to make your home grounds beautiful and artistic—at a moderate expense. Trees and shrubs greatly enhance the value of real estate. The supply of this publication is limited, but a copy will be sent free to those who are interested in beautifying their home grounds. Write now and let us know the particulars.

Oreland, Pa., November 10, 1915.

The P. O. I. Co.

Dear Sirs: My order received and was beyond all expectations, as I thought they would be small trees for the price paid. Cannot see how you can sell trees so low when agents charge at least four times as much. Will recommend your company to my friends. Thanking you for the extras, I remain,

MR. THOS. LACHANMIER.

Pennbrook, Pa., November 8, 1915.

The P. O. I. Co.

Gentlemen: My order received and must say they are certainly fine trees and plants. Believing that my order was too large for me to handle at present. I had promised to sell some to a friend, but when I saw what fine stock they were I wanted to keep them all. Sorry that I had sold any of them. Will want about 1500 plants and roots for Spring. My trees, etc., are admired by all that see them.

Yours for success,
THE PENNBROOK POULTRY FARM,
Mrs. E. Kracht, Proprietor.
